

BRICS ERCP REPORTS PRESENTATION

## BRICS ENERGY REPORT

15 OCTOBER 2020, 14:00-15:15 (MOSCOW TIME)

ARARAT PARK HYATT MOSCOW

The BRICS Energy Report is the first study prepared by experts of the BRICS Energy Research Cooperation Platform. The five countries will present their vision as BRICS on the global energy landscape that is based on their own statistical data and internal forecast estimates. The BRICS countries today account for more than a third of the demand and supply of energy resources in the world, and this share will only continue to grow. At the same time, the decisions made in BRICS states will be of increasing importance for the future of energy industry.

At the presentation, leading experts from BRICS countries and international organizations will discuss the outcomes presented in the BRICS Energy Report, global trends that affect the energy systems of the five countries, the BRICS role in the global energy sector and the potential impact of BRICS countries on the long-term development of energy markets.
